

International Cooperation

IWHR President Kuang Shangfu visited Korea Institute of Civil Engineering and Building Technology (KICT), attending the 13th IWHR-KICT Joint Seminar held in KICT headquarters

IWHR President Kuang Shangfu visited Korea Water Resources Corporation (K-Water), attending a bilateral seminar on smart water management and intelligent water network

A Pakistan delegation consisting of governmental and military officials visited IWHR and talked with IWHR Vice President Wang Xiaogang focusing on flood control and utilization

A Zimbabwean agricultural delegation headed by a provincial governor visited IWHR, meeting with IWHR Vice President Jia Jinsheng and seeking for cooperation on irrigation and drainage

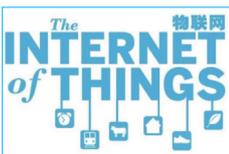

Research Progress

Based on accurate control of field levelling and irrigation process, IWHR developed precision ground irrigation technology to effectively save water and increase yield

IWHR participated in the drafting of the master plan of groundwater withdrawal reduction in beneficiary regions along the Middle Route of South-North Water Diversion Project

IWHR established basic theoretical and technological framework of smart river basin to develop information obtaining tool based on the IoT and build a prototype of a cloud platform

IWHR organized the development of generic software for flood risk mapping with tools such as river network calculation engine, quick unstructured grid generation modules and GIS platform
